## HAVEQUICK and 1PPS Signal Distribution Amplifier 3 x 1PPS + 3 x HQ to ICD-GPS-060

AS9100D Certificate Number : C0210021-AS3

# HAVEQUICK & 1PPS DISTRIBUTION AMPLIFIER (HQS)

## Overview

The Havequick/1PPS Distribution Amplifier (HQS) is a small rugged, DC powered Havequick and 1PPS signal distribution module that is mounted in a 4" x 4" x 2.5" environmentally secure enclosure.

Designed for "fit and forget" operation, this compact, reliable module provides an elegant solution for the distribution of timing reference signals from embedded military GPS receivers, delivering an MTBF of up to 1 million hours operation depending upon configuration.

The unit may be configured for single ended or differential signals as required for the application (factory configured) and is available with various power input options.

## Typical Applications

The HQS was developed to facilitate long cable runs of both 1PPS and Have Quick signals for ships or aircraft requiring these timing reference signals at multiple locations.

The tried and tested, ruggedised enclosure allows the the HQS to be placed in difficult environments and difficult to reach places on ships and aircraft.
