

Audio Output Module

For use with Time & Frequency Solutions' M210 and M211 Modular Timing Systems. The Audio Output Module provides a speech output of time, day of week and date information.

Features

- Speech output of time, day of week & date
- This info can be recorded onto audio tape as a time stamp of the data contained on the tape
- Two audio outputs are provided allowing the signal output to be monitored whilst in use.

Audio Output Module Specifications

Module Connections

Each of the two audio outputs is provided via a ¼" audio jack socket.

Audio Output

Each output provides an audio output of 0.2V rms. into a 600 ohm load. Output level is adjustable by means of an on board potentiometer.

Audio Output Format

The following audio data output is selectable by means of the front panel menu structure:

- Time (hours, minutes, seconds)
- Time (hours and minutes only)
- Date (day of month, month, year)
- Day of week
- Time and Date together
- Time, Day of week and Date together
- Day of week and Date together

Audio Output Frequency

The selected audio output can be provided at the following repetition rates by front panel menu selection.

- once every 10 seconds
- once every 30 seconds
- once every minute
- once every 30 minutes
- once every hour
- upon hardware request from external equipment

Environment (Operation & Storage)

Temperature : 0°C to +40°C

Humidity : Up to 95% RH (non-condensing)

EMC : CE Compliant

Ordering Information

Please quote part number when ordering:

Socket Type	Part No.
Jack Sockets	0210FF000X
XLR Sockets	0210FR000X
